Chinese Wedding Presents.

In social circles of the celestial empire the family of the bridegroom makes presents to the family of the bride of various articles a few days before the day fixed for the marriage. The presents generally consist of food, the leg and foot of a pig, the leg of a goat, eight small cakes of bread, eight dainties, three pairs of large red candles, a quantity of vermicelli, and several bunches of firecrackers.

Rice Paper.

Of the great army of cigarette smokers there is probably not more than one in a hundred who knows that rice paper, in which the tobacco is wrapped, has nothing to do with rice, but is made from the membrane of the breadfruit tree, or more commonly of fine new trimmings of flax and hemp. So light is this paper that 500 of the tiny sheets go to make an ounce.

Cheerful Observer.

When the man above endeavors to discredit you, be of good cheer, for it is probable that you are getting near enough to success.—*Dayton News*

A Woman's Answer.

When asked how much stuff she had canned a Jacksonville woman replied that she had canned a powerful lot, sold a heap, and had a right smart mess left.—*Florida Times-Union*.

They Fly Faster, Too.

Our coinage is symbolic of the change in America's attitude. On the new quarters the eagle is seen in full flight eastward, with beak and talons ready for action. On the old quarters the eagle simply stood still on its tail and flapped its wings. One claw held a few antiquated weapons, the other waved an olive branch, while its beak was entangled with a scroll.—*Independent*.

Time by Wireless.

When a survey was made of the wilds of Bolivia all longitude was figured by the aid of time signals sent by wireless from a station 120 miles from the base of operations.

What is Your Pleasure?

When people can do as they please, what a revelation they sometimes give of their ideas of pleasure!

WANTED—at the Chronicle office: A lot of clean, cotton rags in large sized pieces; no very small pieces or strings can be used. We will pay 6 cents a pound for the right kind. The letter also states that the health of Mrs. Taylor is much better than when here and that she is rapidly growing stronger.

Generl Hedgecoth, Arthur Reed, Roy Rose and John Powell were arrested at Crab Orchard last week charged with having broken into the store of Hill & Kemmer and carried off a considerable quantity of goods. One pair of shoes they had, it seems, had been taken from the store of Craven Hinch near Burke, which leads to the conclusion that they had been playing their trade at more than one place. It seems they had been entering the building occupied by Hill & Kemmer for many months and during the time when T. H. Aytes occupied the building with a general stock of goods. They are all under 18 years of age and are likely to be sent to the State Reform School at Nashville.
